## ASSEMBLY INSTRUCTIONS

1. Assemble the 2 sides first. Ensure the side with the black seal is at the right hand side, front facing. The pre-drilled holes with inserts are to be kept at the back of the base plate.

2. Insert the screws to attach the sides to the base, do not fully tighten the screws at this stage. Turn kiosk around, the back of the kiosk facing you.
3. Apply the sealant tape 8x8mm to the base rear side of base plate, the rear wall will be mounted over this seal. Apply the second half of the sealant tape 8x8mm to the top of the back plate.

4. Assemble the back plate to the sides, inserting screws, again do not fully tighten at this stage at 4 corners.
