	Replacement electrical meter box cover complete with door, frame and key. Flush fitted. Complies with ESI standard 12-3. Suitable for use with the medium Permalite/ Wavin medium/ Irish ESB electrical recessed meter box.	701x504	EDP0025	10

Tricel Construction is a division of Tricel, established to manufacture and distribute meter boxes and enclosures. All boxes and doors are compression moulded with our manufactured in-house raw materials. With over 40 years manufacturing experience, we have developed a diverse range of cabinets suitable for electric meters, gas meters and electronic components. Through continuous innovation and investment in compression mouldings and toolings, we are equipped with high tech modern moulding and compression presses to manufacture our products to the highest standards.
